SUBJECT INDEX, VOLUME 147

(CR = case report; E = editorial)

Abdomen
Drainage of intraabdominal abscesses. A comparison of surgical and computerized tomography guided catheter drainage, 315
Fifty families with abdominal aortic aneurysms in two or more first-order relatives, 551
Implications of bacterial culture from abdominal aortic aneurysms (E), 427
Pancreaticoduodenectomy for trauma: a viable option? 618
Surgical and computerized tomography guided drainage for intraabdominal abscess (E), 426

Abscess
Drainage of intraabdominal abscesses. A comparison of surgical and computerized tomography guided catheter drainage, 315
Experience with liver abscess, 288
Surgical and computerized tomography guided drainage for intraabdominal abscess (E), 426

Adenomyomatosis
Adenomyomatosis of the gallbladder, 260

Alcohol
Effect of alcohol on the release of cholecystokinin and pancreatic enzyme secretion, 53
Outcome in cirrhotic patients with acute alcoholic hepatitis after emergency portacaval shunt for bleeding esophageal varices, 78

Amino acids
Encephalopathy, oxygen consumption, visceral amino acid clearance, and mortality in cirrhotic surgical patients, 542
Infusion of branched chain-enriched amino acid solutions in sepsis, 743

Ampulla of Vater
Palliative surgery for unresectable carcinoma of the head of the pancreas, ampulla, and distal end of the common bile duct in Japan. A statistical review, 349

Amputation
Transcutaneous oxygen tension in selection of amputation level, 510

Anal canal
Treatment of epidermoid anal canal cancer, 43
Anastomotic leakage
Covering stoma for elective anterior resection of the rectum: an outmoded operation? 524
Anesthesia
Anesthesia-associated depression in lymphocyte traffic and its modulation, 807
Aneurysms
Bacterial presence in aortic thrombus at elective aneurysm resection: is it clinically signficant? 322
Fifty families with abdominal aortic aneurysms in two or more first-order relatives, 551
Implications of bacterial culture from abdominal aortic aneurysms (E), 427
Angiography
Intraaortic balloon counterpulsation, 731
Angioplasty
Inadequacy of the noninvasive hemodynamic evaluation of percutaneous transluminal angioplasty, 212
Percutaneous transluminal angioplasty. Results and surgical implications, 578
Ankle-brachial pressure index
Evaluation of graft patency utilizing the ankle-brachial pressure index and ankle pulse volume recording amplitude, 786
Antacids
15 (R)-15-methyl prostaglandin E_2 does not prevent gastrointestinal bleeding in seriously ill patients, 451
Antibiotics
Antimicrobial prophylaxis in elective colon surgery. Experience of 1,035 operations in a community hospital, 633
Clostridium difficile colitis in surgical patients, 486
Combined topical and systemic antibiotic prophylaxis in experimental wound infection, 753
Combined topical and systemic antibiotic prophylaxis in surgical wound infection (E), 838
Noncovalent bonding of penicillin and cefazolin to Dacron, 205
Anticoagulants
Hemorrhagic complications encountered on a surgical service. A 7 year survey, 378
Antigens
Sclerosing cholangitis, chronic pancreatitis, and Sjogren's syndrome: a syndrome complex (CR), 822
Antiprotease
Relation of α_2-macroglobulin and other antiproteases to the clinical features of acute pancreatitis, 164
Antithrombotic drugs
Hemorrhagic complications encountered on a surgical service. A 7 year survey, 378
Antithymocyte globulin
Comparison of kidney transplant survival between patients treated with cyclosporine and those treated with azathioprine and antithymocyte globulin, 518
Aorta
Bacterial presence in aortic thrombus at elective aneurysm resection: is it clinically signficant? 322
Considerations in extrathoracic reconstruction for disease of the branches of the aortic arch (CR), 299
Fifty families with abdominal aortic aneurysms in two or more first-order relatives, 551
Implications of bacterial culture from abdominal aortic aneurysms (E), 427
Appendicitis
Acute appendicitis in children: factors affecting morbidity, 605
Role of obstruction in the pathogenesis of acute appendicitis, 390
Arms
Pulmonary embolism secondary to venous thrombosis of the arm, 221
Arrhythmia
Beta-blocking drugs for arrhythmia, hypertension, and ischemic heart disease, 725
Arteries
Arterial injuries associated with trauma to the knee, 210
Bacterial presence in aortic thrombus at elective aneurysm resection: is it clinically signficant? 322
Burst therapy. A method of administering fibrinolytic agents, 531
Considerations in extrathoracic reconstruction for disease of the branches of the aortic arch (CR), 299
Control of postcarotid endarterectomy hypotension with baroreceptor blockade, 763
Diagnosis of major peripheral arterial trauma by transcutaneous oxygen monitoring, 776
Evaluation of graft patency utilizing the ankle-brachial pressure index and ankle pulse volume recording amplitude, 786
Inadequacy of the noninvasive hemodynamic evaluation of percutaneous transluminal angioplasty, 212
Influence of hepatic artery ligation on survival. An experimental study in rats, 688
Intraarterial streptokinase infusion for acute popliteal and tibial artery occlusion, 583
Lateral approach to the profunda femoris artery, 813
Splenic regeneration and blood flow after ligation of the splenic artery or partial splenectomy, 382
Stroke after carotid endarterectomy: risk as predicted by preoperative computerized tomography, 492
Subclavian artery occlusion 42 years after mastectomy and radiotherapy (CR), 698
Thrombectomy of a hemasite graft, 696
Transcutaneous oxygen tension in selection of amputation level, 510
Atherosclerosis
Considerations in extrathoracic reconstruction for disease of the branches of the aortic arch (CR), 299
Current concepts in cardiac rehabilitation, 719
Azathioprine
Comparison of kidney transplant survival between patients treated with cyclosporine and those treated with azathioprine and antithymocyte globulin, 518
Bacteria
Bacterial presence in aortic thrombus at elective aneurysm resection: is it clinically signficant? 322
Combined topical and systemic antibiotic prophylaxis in experimental wound infection, 753
Combined topical and systemic antibiotic prophylaxis in surgical wound infection (E), 838
Effects of physical configuration and chemical structure of suture materials on bacterial adhesion. A possible link to wound infection, 197
Implications of bacterial culture from abdominal aortic aneurysms (E), 427
Microbiologic efficacy of a surgically constructed nipple valve, 230
Beta blockers
Beta-blocking drugs for arrhythmia, hypertension, and ischemic heart disease, 725
Biliary tract
Adenomyomatosis of the gallbladder, 260
Anomalous arrangement of the pancreatobiliary ductal system in patients with a choledochal cyst, 672
Biliary carcinoma. A review of 109 cases, 503
Causes of cholestasis in Thailand. A study of 276 consecutive patients, 360
Choledochoduodenostomy revisited (E), 304
Choledochoscopy in surgery for choledocholithiasis. Six year experience in 380 consecutive patients, 670
Device for the secure fixation of the U tube, 302
Granular cell myoblastoma of the extrahepatic biliary system (CR), 827
Hyperplasia of pancreatic duct epithelium produced by exposure to sodium deoxycholate, 72
Incidence of complications with operative choledochoscopy, 139
Opioid drugs cause bile duct obstruction during hepatobiliary scans, 134
Palliative surgery for unresectable carcinoma of the head of the pancreas, ampulla, and distal end of the common bile duct in Japan. A statistical review, 349
Pancreas divisum and its association with choledochal sphincter stenosis. Diagnosis by endoscopic retrograde cholangiopancreatography and endoscopic biliary manometry, 367
Percutaneous transhepatic biliary decompression. Results and complications in 30 patients, 615
Recurrent biliary stricture. Patterns of recurrence and outcome of surgical therapy, 175
Sclerosing cholangitis, chronic pancreatitis, and Sjogren's syndrome: a syndrome complex (CR), 822
Septic complications of percutaneous transhepatic biliary drainage. Evaluation of a new closed drainage system, 318
Side-to-side choledochoduodenostomy in the management of choledocholithiasis and associated disease. Facts and fiction, 253
Black persons
Granular cell myoblastoma of the extrahepatic biliary system (CR), 827
Bladder
Course of enterovesical fistulas in Crohn's

disease, 788
Role of hysterectomy in predisposing the patient to sigmoidovesical fistula complicating diverticulitis (E), 660
Treatment options in vesicoenteric fistulas (E), 705
Vesicoenteric fistulas, 681
Bleeding
Bleeding peptic ulcer. 10 year's experience, 375
Esophageal function after injection sclerotherapy: pathogenesis of esophageal stricture, 85
Experience with 49 consecutive dacron interposition mesocaval shunts. A unified approach to portasystemic decompression procedures, 393
Hemorrhagic complications encountered on a surgical service. A 7 year survey, 378
Outcome in cirrhotic patients with acute alcoholic hepatitis after emergency portacaval shunt for bleeding esophageal varices, 78
15 (R)-15-methyl prostaglandin E_2 does not prevent gastrointestinal bleeding in seriously ill patients, 451
Selective operative approach for variceal hemorrhage, 89
Blood
Noncardiogenic pulmonary edema after cardiopulmonary bypass. An anaphylactic reaction to fresh frozen plasma, 560
Observed differences in postoperative lymphocyte transformation are explained by patient and population variations, 237
Relation of α_2-macroglobulin and other antiproteases to the clinical features of acute pancreatitis, 164
